

Abenezer Kebede | Software Developer

Address: Addis Ababa, **Phone:** +251 913228892, **Email:** abeneikeb79@gmail.com

Professional Profile

Solution-driven Software Developer is adept at contributing to highly collaborative work environment, finding solutions, and determining customer satisfaction. I am a highly skilled with Proven experience developing consumer-focused websites using HTML, CSS, Python, Java & JavaScript. Built products for desktop and mobile app users over 1+ years, meeting the highest standards for web design, user experience, speed, scalability, and security. Designed and developed web & mobile applications across multiple APIs, third-party integrations, and databases.

Core Skills

- Software development lifecycle
- Agile Workflow
- Software and system modification
- Code Testing
- Version control Management
- System Security
- AWS deployment
- PHP 7.X
- Java
- Python
- JavaScript
- Node Js & Express Js
- Advanced DB design on SQL & NO-SQL

Carrer Summary

MAY 2021 – CURRENT

Backend Developer

Fetan Delivery Startup Company, Addis Ababa, Ethiopia

Key responsibilities

- Consulted regularly with internal customers on application development project status, new project proposals and software-related technical issues.
- Created software programs, wrote codes and tested programs for optimal performance and accuracy.
- Conducted functional testing over course of web development lifecycle.
- Oversaw back-end development using Backend PL to maintain website integrity, security and efficiency.
- Compile and analyze data, processes, and codes to troubleshoot problems and identify areas for improvement.
- Recording data and reporting it to proper parties.
- Employed search engine optimization tactics to increase reach of targeted audience.
- Developed technical solutions required to accommodate specific user-facing assets.
- Built and styled new mobile-friendly websites, transitioning legacy presentations to simultaneous easy-to-use versions.

Key Achievements

- Planned high-Scalable & fast software, thereby, improved the overall efficiency of company processes by 50%.

APR 2021 – MAY 2021

Mid-Level Software Developer

Temu Photography, Addis Ababa, Ethiopia

Key responsibilities

- Worked closely with clients to establish specifications and system designs.
- Created software programs and wrote codes to develop Sales Management System.
- Implemented innovative systems for data collection, storage and management of customer orders.

- Designed, modified and tested codes and scripts using PHP and MVC frameworks to help computer applications run efficiently.
- Built databases and table structures following 2-tier architecture methodology for web applications.

Key Achievements

- Developed a business intelligence dashboard, as a result, gave the front desk real-time visibility into inventory and sales management system.
- Improved the current system software, making it 50% more efficient than before.
- Built security into new product features to achieve 100% compliance with industry best practices.

OCT 2019– FEB 2020

Software Developer Intern

Ministry of Innovation and Technology(MinT), Addis Ababa, Ethiopia

Key responsibilities

- Learned software engineering process improvements and best practices.
- Supported development, QA and user experience staff to develop new products.
- Quickly learned new skills and applied them to daily tasks, improving efficiency and productivity.
- Collaborated effectively with members of software development team and personnel in other departments.
- Created interactive websites with software development department using PHP CodeIgniter Web frameworks.
- Devised high-quality database solutions ranging in size and complexity, increasing productivity and improving data sharing.

Key Achievements

- Trained 15+ individuals in handling software development cycles, as part of their induction processes
- Implemented high-Scalable software, that improved the overall efficiency of Incubation Center processes by 35%.

Education

Sep 2015 – Feb 2021 | Bachelor of Science: Computer Engineering

Jimma Institute of Technology, Jimma

June 2020 – Aug 2020 | Certificate in Coding: Programming courses [mastering react and Nodejs]

Code with Mosh School

Achievements

- Certified **Developed Project Management System for Incubation Center**, MinT - Feb 2020
